WORK EXPERIENCE

University of Missouri-Kansas City

Kansas City, MO

Academic Advisor I

October 2023 - Present

- Manage an active caseload of 300+ students.
- Cultivate strong student-advisor relationships by providing individualized guidance that supports academic success, degree completion, and progress towards career aspirations.
- Counsel and assist students regarding academic tasks and issues such as declaring majors/minors, course planning and selection, class scheduling and registration, petitions, and career preparation.
- Maintain meticulous and timely advising records, and implement efficient procedures for monitoring enrollment, tracking items, form submissions, and other documentation.
- Independently manage a detailed spreadsheet to streamline orientation and enrollment processes for the Natural and Health Sciences MAP, lead the Awards and Recognition Committee as co-chair, and participate in team and academic unit meetings.
- Deliver instruction to 150+ students in the First Semester Experience course.
- Create and present workshops for first-year pre-medicine and pre-dental students.

Traditions Health

Mishawaka, IN

Volunteer Coordinator

May 2023-October 2023

- Acted as a liaison between hospice and volunteers regarding patient/family needs.
- Recruited, selected, trained, and managed hospice volunteers.
- Developed the volunteer program in collaboration with the interdisciplinary team (IDT) and administration personnel.
- Established a public relations program to foster good working relations with volunteers and the community.

Judd Leighton Speech and Language Clinic

Notre Dame, IN

Student Clinician

August 2022 - May 2023

- Provided direct clinical services to 8 clients of varying ages and backgrounds with speech, language, and communication disorders.
- Built rapport and maintained positive personal relationships with clients and families.
- Conducted assessments, including standardized testing and informal evaluations, to determine clients' communication needs and goals.
- Developed and implemented individualized treatment plans targeting speech and language goals, incorporating evidence-based practices and therapeutic intervention techniques.
- Collaborated with multidisciplinary teams, including speech-language pathologists, educators, and healthcare professionals, to coordinate client care and progress.
- Documented client progress and treatment outcomes accurately and comprehensively in clinical records and reports.
- Provided counseling and education to clients and their families on speech and language disorders, treatment strategies, and home practice techniques.
